You **must** read the information on the reverse of this notice to get important information about your award.

LOAN FOR LIVING COSTS

The Student Loans Company (SLC) will pay your loan of £3,665.00. Please see the remarks on page 2 for more information.

- The amounts we have set out in your award notice are only valid for the college or university, course and year shown. If you want full details of how we calculated your award please contact us.
- Please quote your SAAS reference number whenever you need to contact us.
- Please let us know immediately of any change in your circumstances that may affect the amount of money due to you. For example, if you change your course, address, are repeating a year of study and so on. When we assess your entitlement again, for any reason, we will send you a revised award notice.
- Tell us immediately if you change your bank details and at least four weeks before your next payment is due. If you do not do this, your payment may go into the wrong account.
- You must tell us if you leave or suspend your course part way through the academic year - you may have to pay back any money you are not due and you may lose your entitlement to help with your tuition fees. If you do decide to give up your course at any stage, we would strongly advise you to contact us first.
- Remember that you have agreed to repay any amounts we pay you that are more than you are entitled to. You must do so in all circumstances irrespective of whether the overpayment has been due to error or otherwise.
- The Student Loans Company (SLC) will send you further information about your loan shortly. If you have applied for an amount less than the maximum loan you are entitled to (£3,665.00) and later want to take up all or part of the difference, you can download a form from our website or contact us and we can send one to you.
- If we have worked out that you must pay all, or part of your tuition fees then you must contact the university or college that you are attending.
